ACADEMIC PROJECTS

❖ Spotify Colon | HTML, CSS

Developed Spotify-inspired music streaming website using html and css, featuring a responsive layout with sidebar navigation, music and album sections, and a bottom music-player interface. Applied CSS Flexbox, positioning, and responsive design techniques to create a clean and modern user interface similar to spotify.

❖ Calculator | HTML, CSS, JavaScript

Developed a functional calculator using HTML, CSS, JavaScript with an interactive user interface, supporting basic arithmetic operations such as addition, subtraction, multiplication and division. Implemented JavaScript logic to handle user inputs, calculations, and dynamic result display.
